## Project Profile—QUB MBC

**LOCATION:** Lisburn Road, Belfast

**CLIENT:** QUB

**MAIN CONTRACTOR:** Killowen Contracts

**COMPLETION DATE:** September 2015

**PROJECT DESCRIPTION**

The MBC accommodation comprises purpose built dissecting rooms (main and minor) with supporting display areas, preparation/storage rooms and seminar rooms on the first floor; histology lab, preparation room/storage area and a seminar room on the ground floor and an anatomy mortuary area in the basement.

Although 'fit for purpose' the current mortuary facilities, which have had little refurbishment or upgrade since 1968, were at the end of their useful life and in need of significant refurbishment. The refurbishment works included a full upgrade of the teaching facilities within the Main Dissection room.

The mortuary facility and the overall HSC remained operational throughout the works, and managing health and safety and minimizing disruption was a major focus for the design and programming of these works.

**SERVICES**

- Light switches
- General Power sockets
- Compartment PVC data trunking
- Distribution Boards
- Lighting
- Emergency Lighting
