

Industrial & Retail

Project Profile—Park Centre

LOCATION: Donegall Road, Belfast

CLIENT: Latt Limited

MAIN CONTRACTOR: H&J Martin

PROJECT DESCRIPTION

The Park Centre in Belfast was the subject of a major extension and refurbishment in 2008. It is one of N Irelands longest established shopping Centres and the project required that there was the minimal mobilisation of traders.

Phases of work undertaken have encompassed a number of major improvements, including extensions to provide additional floor space. The existing Mall was upgraded to provide a refreshed image. This included improved levels of natural and artificial lighting, creating an enhanced shopping experience.

The project was carried out in two phases the latter involving refurbishment of the Centres Mall and main entrance of the existing complex with a contract value of £5m.
