## Project Profile—De LaSalle College

**LOCATION:** Edenmore Drive, Belfast

**CLIENT:** BELB

**MAIN CONTRACTOR:** O'Neill & Brady

### PROJECT DESCRIPTION

Following the decision to close the existing secondary school, JD McGeown were appointed as part of a supply team to carry out the £1.57 Million electrical engineering services installation for the £14.5 Million rebuild of the school on an adjacent wide area site.

The project was made up of 2 phases (JD McGeown worked on both phases) and it was to provide 3 storey classroom blocks, multi-function hall, design and technology block, gym, changing facilities, garage, and office/administration space.

The college also serves as an Entertainment Venue and Multi-sports venue in after-school hours.
