Project Profile—Whitla Building

LOCATION: Lisburn Road, Belfast
CLIENT: Queens University
MAIN CONTRACTOR: Felix O'Hare
COMPLETION DATE: Nov 2014

PROJECT DESCRIPTION

The project involved the complete redesign and upgrade of the 1960s built research centre, which is part of the Queens University Health and Science campus.

The building was live during this refurbishment which we managed carefully and successfully completed the project without disrupting the day to day running of the building.

This major refurbishment took in part of the ground floor of the Whitla Medical Building as well as the first floor and a complete refurbishment and fitting out of the second floor.
